

TM-BLB

Bridge light Bracket Mounts

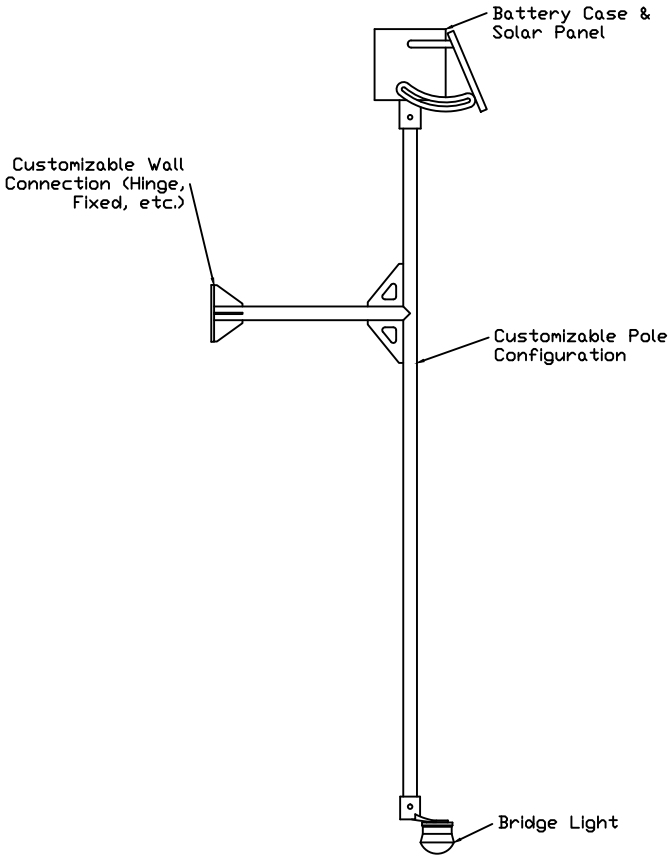

Tritonbuoys has extensive experience in both the design and manufacture of bridge light mounting brackets tailored to a wide range of applications. Our expertise extends to creating custom-designed brackets that meet specific customer requirements, ensuring a perfect fit for any unique project needs.

Product Code: TM-BLB

Tritonbuoys mounting brackets are constructed from high-grade steel, known for its durability and strength, and are coated with marine-grade paints. This combination not only enhances their resistance to harsh environmental conditions but also significantly extends their service life. By investing in these high-quality materials and finishes, we ensure that our products require minimal maintenance, providing long-term reliability and performance for bridge lighting installations.

Applications:

- Ports and Harbours.
- Traffic bridges.
- Pedestrian bridges.
- Inland waterways.

General Characteristics
